We are excited for the new year with our Before and After School group. The group has come up with some new ideas that will be interesting to attempt during the next month.

We have replaced Lillio(HiMama) with a new computer program called Parent was introduced at the end of December, 2024. It allows for daily attendance, messages and more. We hope you were able to view it on that date. It may take a few days to become more comfortable with it, however we are willing to try something new!
